I have One large, six medium, and one small Titan Chain tongs. They are made by Gearench, and are reversible. They are a few years old, but have never been used. They have been sitting in a storage unit, and have some minor rust, but overall in good condition.

The jaws are drop-forged from high-quality steel and properly hardened and tempered to stand the severe service expected of them. All sizes are equipped with heat-treated PETOLâ„¢ Special Chains.

If your interested email me for more information. Items located in Billings,.
