

3 lil kittens who lost their mittens (locust grove, kuna)

Location

Idaho

<https://www.genclassifieds.com/x-677634-z>

Me and my daughter has lost our 3 cats during our unfortunate move, there are three of them 2 males- 1 is solid black with a notch on his left ear and he is short hair, the other one is black/white, he is neither long or short hair and has a blue cheetah print collar and again a notch on the ear- they have been fixed. The 3rd is a black/white short haired female- possibly wearing a pink harness, her and the other black/white male have the same white pattern on chest. Please if you see them call me, it would make my daughter's world. They were last seen in kuna on east locust.
