Our 3 month old mini dachshund needs a family that has more time to share with her. She is kennel trained and will use a training pad if left alone in a smaller penned room. If put out to potty about 930 pm she will make it through the night til about 6 am. She is up to date on her shots and is absolutely the best puppy ever! She plays with others, learning to play fetch and loves to play tug a war. We just don't have the time we feel she deserves. We are asking a re-homing fee of \$300 which includes a box of training pads and a couple of her favorite toys and her bed. Please only reply if you have the time to spend with.
