Musical Heart Strings is a professional violin/cello duo that can expand to a trio or quartet if the need arises. We can even add a piano/keyboard (depending upon availability to any of our combinations).

We have been performing together for thirteen years and offer an extensive repertoire. Our list includes classical, jazz, pop, rock and roll and even some heavy metal. In sound, we are very much like the Vitamin String Quartet, but more reasonably priced because we can play as a duo. We arrange most of the music so they are original covers not to be heard by anyone but our group. We are available for hire for any gathering: weddings, parties, funerals, corporate events or even for serenading a romantic dinner for two, or wedding proposal. We can also stroll, even with a cello! Feel free to browse our site and listen to the sound bites for an idea of how we sound at <http://www.musicalheartstrings.net/repertoire>. Currently we have samples up of our string duo, string trio, and piano quartet. If you wish to hear a piece that is not yet sampled, we can record a sound bite on our list especially for you (at no charge).

We can also provide our own amplification at no additional charge.

One client wrote "you are all folks have talked about since that evening. You exceeded our expectations, and made us look like rock stars so thank you so very much." We have many more reviews on our website, which were direct copies of all the reviews we have found on other websites for us, like Yelp and wedding websites. You can see our complete list of reviews at <http://www.musicalheartstrings.net/testimonials>.
