## DJ Assistant for upcoming events (DE

Location **Delaware** https://www.genclassifieds.com/x-678622-z

I've got a few Saturday DJ events coming up for which I need an assistant. Primary responsibilities are to help set up equipment, assist during event, breakdown of equipment and loading and unloading of equipment. Must be able to lift up to 50 lbs, be able to stand on your feet for several hours at a time, go up and down stairs. Great opportunity to see wedding side of things if interested in DJ business or even wedding biz in general. Fun evening, will feed you! Reliability is of utmost importance as you will be my crucial right hand during these events. References reg.
