

Need cement and block work done (Bear,DE)

Location **Delaware**
<https://www.genclassifieds.com/x-678623-z>

I'm putting a 24' by 24' two story garage in my backyard. I'm digging the ditch and I already have the block. I need someone to install the footer and lay the block. I will need a cement pad inside the block wall. This is a very large yard with plenty of room to work. Please contact me if you are experienced with this type of work. Sorry about the dark pictures I took them just before sunset. I'll take more pics tomorrow.
