cold start & walkaround video
<https://youtu.be/OkHX-uN0nMM>

Powermate/Coleman generator info:
Surge: 8125watts
Running: 6500watts
Serial # D26012608
Model # PM0496900

Motor is clean. No problems. Great running Honda. Starts on first pull like a Honda should.
This is a very popular commercial motor used on pressure washers, generators, long shaft go-devil style

motor, go-karts and more.

motor, go-karts and more. The motor is just new. I have changed. I have a lot of tools to fix it. I have any.
