Don't want to pay the crazy high prices and weeks-long turnaround times of a big body shop? I specialize in Corvettes and classic car restorations but can do all types of paint and body work including insurance claims. I will help you with deductibles also. Most times you won't owe anything. I can usually do fender benders in just a couple days and you will be back on the road. I also can repair bumpers that other body shops won't do. I also do exclusive color matched spray-in bedliners. I also airbrush and do custom paint and tint. Get your car fixed and looking good for the best price around! Call Kenny

All work is.
