

# JDM s14 front clip and lots of other parts

Location **Alabama**  
<https://www.genclassifieds.com/x-695807-z>

Have a JDM front clip no body panels but has mint ac condenser, radiator (sr20det so you don't need to go buy a \$300 one for your swap), shroud, evap can and other misc odds and ends also have 2 zenki hoods and tons of other interior/exterior stuff. From se gauge cluster to 4 point seat belts. Front bumper, rear bumper blacked out headlight lenses, factory radio, fog lights, rear roof spoiler, 3 inch mid exhaust pipe, Megan down pipe a whole passanger door with glass and all and lots of other things I'm forgetting. Am interested in some trades as well especially an s15 steering wheel or any nice steering wheel.
