Hello! I am searching craigslist in hopes of finding a puppy to adopt. I am not looking for an expensive pure breed canine. I do not mind what the breed is, the only breeds I am not interested are in small breeds. I currently have one puppy, Hunter. He is 9 weeks old. A lab/American bulldog mix. I am looking for another dog that will get to grow up with Hunter. I am an active person and work outside year round. The pups will always get exercise, and socializing time. I live in a house with a good sized fenced yard. I will take very good care of your pup. It is going to go to a good home. Let me know! Send pics, price, and breed name. Thank!
