I have a 11week old male morkie. He's about 2 lbs. we brought him home a week ago but my older dog hates him! So I'm trying to find him a home now. He does wander to a pee pad 90 percent of the time and will follow you everywhere. We had to put a bell on his collar so he wouldn't get stepped on! He comes with food, water/food bowls, collar, bell, and delta carry case that he sleeps in, toys, treats....\$650.
