16yr old paint gelding. Registered and has papers. This horse had its purpose for us when my youngest was just transitioning from a pony to a big horse but now he is bored with him. The horse's name is Turtle for good reason. I have to sale him in order to replace him with something that has a little more gas. He would be great for someone that just wants to trail ride or someone needing a babysitter horse. Absolutely no buck or bite or anything. Easy keeper as well. He's up to date on vaccinations and has current coggins. We've taken him to several open spaces and state parks. He will cross bridges, water and doesn't really let anything bother him.
