

Siberian Hamster Babies (Philadelphia)

Location **Delaware**
<https://www.genclassifieds.com/x-696878-z>

I have 3 dwarf hamster pups to choose from: one orange, and two brown. They are all boys. I also have two adult females, one brown, and one white. All friendly, easy to handle, and make excellent pets. Boys may leave together in pairs, girls must leave separately.

To properly care for a dwarf hamster, you need a 20 gallon tank, and one wheel, hide, and sand bath per hamster. They are easy to maintain and care for, and lots of fun to play with for kids and adults alike.

Text or email to adopt one (or!)
