Women Of Summer Photographic Series
The purpose of this series is to show thru images, and storytelling thru images, women and the interaction of Summertime and any/all Summer activities.
I am looking for women ages 18-40 to participate in this series.
Any and all ethnic backgrounds please apply, although I already have an abundance of African Americans, so I would like to fill out other ethnicities.
This is an ongoing project that will last thru the summer and most likely autumn into winter.
Upcoming shoots available: beach, waterfalls, jacuzzi, pool, fishing, boating, levitation, sunset/sunrise, friends, workout/exercise among others...
This is a selective process, and there is no need to be a professional model...if interested please apply via replying to this ad. Include your full name, age, race/ethnicity, height, weight, measurements (ie: 32b-24-32), list any shoots listed above you would like to be considered for, any links to your pics, and/or a few recent images of yourself to expedite the selecting process.
Compensation will be given to the individuals selected in the form of cash and images.
Each shoot will last between 1 and 2 hours.
Please be available to travel to on location destinations for the shoots.
Most shoots will be in or around Western Wisconsin, and Eastern Minnesota, in State Park areas, local lakes/rivers etc.
Thank You for your interest, and I look forward to working with you and creating some amazing images!!
