

Gibraltar GCS (400 USD)

Location **Louisiana**
<https://www.genclassifieds.com/x-697000-z>

Selling a used, modified Gibraltar GCS-400C drum rack. I have switched out the 2 curved vertical legs that come with it and replaced them with straight legs. Also included are 2 rack tom mounts that are sold separately valued at \$40 each(\$80 value). When I was still using the rack, I had the idea to switch out the shorter c-wing arms with the old curved legs that we sitting on the shelf. It gives you about the same spread as the 3-sided racks that are more expensive. This is a great rack for someone who has a lot of cymbals or needs space for a lot of attachments. In the pictures, you will notice that I have one short c-wing to the left and one long c-wing to the right (older curved leg re-used) connected to the rack to give you an idea of how they compare size wise. The older curved legs are included at no extra charge.

- Features
- Two 30" curved vertical T-legs with angle adjustment
 - Cymbal mounts from both vertical T-legs
 - 46" curved horizontal front bar with two multi-clamps and memory
