Looking for a female country roots songwriting, harmony and guitar partner. I write and sing Country spent time in Nashville had songs on the roots Americana country charts. Influences Steve earle johnny cash, Waylon, Willie, george strait, john mellencamp, Robert earl keen and many More. I would like to perform with A Female to help appeal to a wider variety of people and to play some gigs on the coast. Here's some samples. 1-5 on the list I don't know who is singing on the rest of the songs that come up are those aren't mine. I'm looking for a kasey musgraves , Sheryl crow type sound but the main thing is to have a passion for writing and performing. I have a ton of new material if you have some that's great too!
