Location **Massachusetts**  
<https://www.genclassifieds.com/x-708576-z>

Life-saving book for women written and ready for publication. Need Angel Investor for this pictorial, cartoonish-ish style presentation warning of the rape, torture and murder of THOUSANDS of women each year. "There are still many more Ted Bundy's out there" -- women need survival tools; need to be warned on how to avoid such predators.

NEW YORK MAGAZINE has given permission to use their interview quote with Mandy Patinkin. He gives his reasons for quitting "Criminal Minds" -- the murder and rape of women every day, every week, every month, etc., he found damaging to both his personality and soul.

Fathers are concerned as they send their daughters off to college. Female Realtors no longer hold Open Houses alone. Entire families and communities are devastated by these horrors. My book is an education tool -- a very real conversation starter. Our goal: to save women's lives! Synopsis available to credible inquiries only. Thank.
