Hey there! I am a pro guitarist and have a nice home studio. I can record electric or acoustic guitar parts for you in almost any genre. I went to Musicians Institute in LA and 2 other colleges for music in St. Louis, MO as well. I can record just what you need and very fast. This way you will save time and money instead of bringing a session musician into a studio.

I can send raw WAV. files or add effects for you. Please contact me to discuss prices and details. I will record anywhere from \$40-\$100 per song depending on what you need and how many tracks the song will need from me.

Please only contact me if you are serious and want guitar tracks. I really want to record stuff for you and and I would rather not e-mail 20 times just to chat. I love making music and thats why I'm here. So if you need tracks let me know and we can start very soon.

Jared
