

## Complete Aqua-Vu DT Underwater Viewing System! Virtually NEW!

Ideal for viewing live underwater footage from your boat, raft, any other water spot or for use in permanent ice fishing shelter applications. Many other uses including aquariums, scuba divers, chimney inspections, well inspections, and the list is limitless.

Why pay full retail, tax, or shipping when this pristine unit is available for half price.

The package contains Aqua-Vu DT (Depth-Tech) components. You'll be viewing-ready

Keep your finger (weathering) on the attaches (control) trying Shun (let it slip) up and down (roll).

Convenient viewing, folds ON/OFF-On/Off (Flip/Fold)

5. **Gaming Shuttle** with handle (allows stable and camera mount tilt-able) (union)

**Proposition 4.1.** *Let  $\mathcal{A}$  be a  $\mathcal{C}^*$ -algebra and let  $\phi$  be a  $\mathcal{C}^*$ -homomorphism from  $\mathcal{A}$  to  $\mathcal{B}(\mathcal{H})$ . Then  $\phi$  is injective if and only if  $\phi|_{\mathcal{K}(\mathcal{H})}$  is injective.*
