Looking for someone who took two kittens from me on October 30th.

You took a black kitten and an orange kitten, while you originally wanted just the black kitten. I lost your number and would like to keep updated on their well-being as it is a big concern of mine. You drove all the way out from Fergus Falls.

If you see this please contact me on the number you originally did if you still have it, otherwise please email me if you no longer have my number. I'd really appreciate!
