Hello, I am looking to hire 3 women to model with my car for a photo shoot. I would need two hours of your time next weekend.

You must be willing to pose with my car on camera in bathing suites, skimpy outfits and nude. The nude pics will not be posted any where on line. You can keep a copy of the photos if you are building a modeling portfolio. I am just building a photo album for my car and would like to get some cool photos in it.

Looking for 18-30 women
Open to race

Respond with a few pics and what you would charge to do this. I already have a pro photographer set.
