Original metal band looking for a good bassist that's on the same page with us: positive and professional attitude, stage experience, and serious about being part of a working, productive band. Be self-contained: talent, trans, equip, and motivated to devote time to doing music for weekly rehearsals and playing 2-4X/mo. If you can sing lead so much the better. Send your samples/links for immediate consideration. [Reverbnation.com/Moon Shadow](https://www.reverbnation.com/MoonShadow)
