

Looking for a Personal Injury Attorney (Cincinnati)

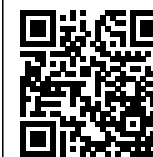

Location **Kentucky**

I am looking for an attorney with less than 3 years of experience. Why well I remember how hard it is to get started in a career with little experience. It seems that almost everyone wants some well experienced. I want to give a new attorney some valuable experience. Also the case involves not a lot of money so more experienced lawyers would want a more lucrative case.

The case is a personal Injury case where due to landlord failure to repair I was injured. Landlord was notified of disrepair on move in day and promised to fix but 3+ months later nothing is fixed and I was injured by the nonrepair.

Contact me for further details.
