For sale is my 2004 Mercedes Benz E500 sedan. Trying to buy a 4wd truck so the car has to go. This car is loaded. Looking for a good luxury car with all the options at an affordable price? This is your car!

Leather, navigation, heated/ventilated massaging seats, heated steering wheel, sunroof, six disc plus one cd changer, iPod integration, keyless entry, push button start and more. I've put new front and back brakes on her in the last year or so and I put tires on her last October with lifetime alignment from Bridgestone Auto Center that stay with the car so you never have to pay for alignment again!

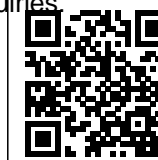

Car has 173k miles and counting as this is my daily driver to work. If you know Mercedes, you know that that's nothing on a Benz motor as they can easily surpass 300k. This car drives like a dream and looks smooth as it's the same body style from '03-'09. Keep in mind it is a used car so it has its blemishes but this ride will not disappoint.

NADA is \$8300

Asking \$6,000 or best offer.

First reasonable offer will be accepted. I've found the truck I want so I need to sell as soon as possible. Needless to say, I'm a MOTIVATED seller.

Call, text or for additional info. No PayPal. No bogus scam emails or texts. Only serious inquiries.
