

# New Joyetech mode and complete vapor Set Egrip OLED (40 USD)

Location **Oklahoma**  
<https://www.genclassifieds.com/x-710469-z>

65 brand new after taxes. Some places higher. Everything you need. No regular battery needed to purchase. Charged through wall and any USB port. Even computer outlet car and so on. Multiple tips. Never used other then once to making sure it works. It's the mod battery tank in one so you don't have to worry about buying a separate tank and a separate mod they are both the same thing compacted into one handheld device that changes wattage and voltage with a twist of a button extremely high tech. One button pushed for vapping. 5 consecutive button pushes to turn off to keep it from accidentally firing in your pocket. It holds a very large amount of Juice for its size. It's extremely simple to change the drip tip or to change the wick with no Mess and very easy to fill with no Mess. I will download quite a few pictures but I have plenty more and can answer plenty of questions I will also take the best offer for this device. Comes with all packaging pamphlets and so on. Dropped all the way down to 40 Ono. Basically brand new. Can't take anything crazy for it. Will just use it. Free bottle of juice. 10\$.
