

adopt me German Shepherd

Location **Alabama**
<https://www.genclassifieds.com/x-710701-z>

I have a neutered male german shepherd available for adoption. He was treated for heartworms a month ago and had his follow up injection yesterday. He is utd on vaccines. Not a great dog for young kids, he would make a great guard dog/personal protection dog. He is estimated to be between 4-5 years old and was a rescue. I've taught him basic commands, shake and roll over.he is great with all of the daycare dogs and my dogs. He is potty trained and crate trained. He is very bright (like all german shepherds) . He needs someone who knows how/when to give a correction with a prong collar. He must have an experienced handler as an owner. Message me for more details. Text only.
