Need help this Friday in cleaning Southfield house. The hardwood floors were just refinished and a thin layer of sawdust must be removed from window sills, countertops, banisters, tiled floors, walls, etc. There is very little furniture in the house, but what little there is is out of place and must be returned to its original location. We're talking a dining-room table, small buffet, china cabinet, bedroom dressers. I need your help with cleaning and this little bit of furniture moving.

I will pay two people \$20 per hour with a guarantee -- and maximum -- of \$80 per person, though I am sure that the job will not take four hours.
