I have at least 100 watches of all kinds (mostly women's but some men's too) that need new batteries. To replace the batteries, I will pay you \$2.00 per watch if you supply the batteries, or \$1 per watch if I provide the batteries. Your choice. I would give you 10-20 watches per week, but this could be adjusted up or down depending how fast you like to do them. But you must have had some experience doing these (and have the necessary tools) as they can be a bit tricky and I don't want my watches to get all scratched up with bad attempts. Please reply with a statement of your.
