

Create digital greeting card designs for national online card store (work at home)

Location **New Jersey**
<https://www.genclassifieds.com/x-711214-z>

We have a new greeting card sales website for you to check out. On this site ordinary folks as well as great artists can create greeting cards from scratch. Cards can be created on the site or you can upload an image and make a great card.

When the site sells one of your cards, you the artist will receive \$1.00 each and every time.

Its easy to create a card on the site or just upload something and modify it to be a card right on the site. You would most definitely need to add a good saying before posting a card for sale. It's easy and all are welcome to participate

Right now the site is live but in test mode. We would be happy to have some folks come to our site and post some cards and give us some feedback. kick the tires, tell us if we are doing something right or wrong, so help a site out a little and get in early.

ALL IS FREE, NEVER A CHARGE TO YOU FOR ANYTHING EVER. We are here to make you money. The site wants to work for the people and in turn the people will work for the site.

Our goal is to create a great site for the public to buy cards. And at the same time enable folks at home, with some good talent to make some extra cash and have fun doing it. We want to showcase the variety and diversity, so we will not reject anyone's card submission unless it is rude or nude. So come on by and be a part of this cool thing. And make a few dollars while your there.
