I'm looking to either sell or trade my motorcycle for a sled(something fi preferably) it's a 2005 Yamaha R6 raven black edition. It has 16000 miles and runs amazing It has velocity stacks and a D&D carbon fiber muffler and stainless pipes (sounds amazing!). The only thing wrong with it is that it needs upper fairings and a headlight mount(the previous owner laid it over) other than that it's in good shape and stupid fast! I also just bled the front and rear brakes and it had new tires with only 60 miles on them and fresh fork seals and a new headlight. Title in.
