within a mere few hours this nut sac goes from "You seem like a fairly intelligent person. Why do you keep taking the bait of the trolls?" to "FUCK OFF AND DIE you lying piece of STINKING SHIT FOR BRAINS. You are a disgusting and stinking excuse for a human being"

There's West Palm psychotic tendencies shining through once again for you and all to see where his heads at all within a mere couple of hour period. Call it needing some serious therapy or what ever you wish but it does prove the obvious is going from one extreme/pole to the other extreme/pole. I would suggest simply ignoring this child as all he wants to do is try to start a fight and annoy others but he isnt worth the time as he refuses to back up what he claims than starts u pall over again This is referred to in the medical community as Bi Polar and is usually fixed with psychological/psychiatric medication. His posts attached below for all to see a true wacko and what he claims doesn't exist:

As usual, and very reliably, you come up with more insane and childish stories about someone who you do not know. That certainly proves that your what was your brain has turned in to mush and an oozing pile of shit, but at least you can use it to eat so it is not a total waste.

FUCK OFF AND DIE you lying piece of STINKING SHIT FOR BRAINS.

You are a disgusting and stinking excuse for a human being. You need to be put away for the sake of humanity. Perhaps that is the problem. Perhaps you escaped from a high security mental institution.
