

# Odometer Reset (TacParkland)

Location **Washington**  
<https://www.genclassifieds.com/x-730442-z>

Hello,

I just changed my instrument cluster, and the only thing that isn't working correctly is the odometer. I tried to reset the computer using the negative wire removal method. What I have seen if you have a scanning tool you can reset it. Let me know a.
