Yo people!

I'm a 22 year old electric guitarist. I write originals and don't ever really do covers - you will find a lot of my original material on my soundcloud (the first link I gave you), just browse around and maybe you will find something you like. I would love to find some band members to add their own original layers to my material, and also just people to jam with in general! Hopefully you enjoy the sweet guitar music I'm trying to make and are interested in either supporting me, following me, or joining me!

Looking forward to your responses!

Influences: dance gavin dance, polyphia, chon, stolas, sianvar, a lot like birds

I live out in Cincinnati so at least for now work will have to be done via internet! These are just demos and works in progress so I am not expecting you to have amazing recording gear, even if you just have a phone to record off of then we can get some kind of work done at least for the fun of!
