QR Code Link to This Post I have 6 amazing small puppies that I need to get rid of! Although I love my babies I'm moving into a place where pets are not allowed. My dog had puppies going on three weeks ago now & there is nothing more I want then to see her little ones in a safe home that can maintain whatever needs they need! I don't feel right asking a price just please ensure shelter and food and just pure love ! Serious inquiries only please
