QR Code Link to This Post I am a "Mr. Fix-it" kind of mechanic. I fix all kinds of things from small engines (lawn mowers, weed whackers, chain saws, etc), to motorcycles, quads, and go-karts, to small farm equipment, EVEN SMALL DIESEL. I will work on anything with an engine that's NOT a car... I'm even handy with a welder, so I can repair broken parts (steel/iron only) and custom fabricate brackets, mounts, and other similar parts too....

If it's broke, call me, with 20+ years of experience, I can probably help you out. Pick-up and delivery available on the east side, or I can fix some things on-site.

Lawn/ Garden equipment/ Compact tractors: \$27/hr, \$50 minimum.
Welding/ Heavy equipment: \$35/hr, \$60 minimum.

Please note: , I WARRANTY MY WORK!!!!

NO E-MAILS OR TEXTS, PLEASE

Call me: 9ine 6ix 0ero - 0ero 8ight 7even 8ight
