QR Code Link to This Post I need to state first That if your looking to get any work done during hunting season its not going to happen. I'm to busy then with work and hunting, before we even begin to think we can work out some sort of trade I will need to have time to scout your property in the off season to determine whether I want to even hunt there or not. I'm a 47 yr old Home remodeler Archery hunter looking to trade my services for the right to hunt on your property. I already have great places I hunt but am always looking for that right landowner with the right property to form a long term relationship with. I mainly hunt Big mature Animals and not interested in areas where the neighbors hunt, dog drive or your property borders a hunt club. Those are places where they shoot anything that moves and not the areas I look for. I can also help you get rid of those fawn,dog and cat snatching Coyotes. Since I archery hunt I do most of it in the town limits in places you wouldnt believe so in town, sprawling neighborhoods or on the river or lake is fine and preferred but I'm open to most anything if its what im looking for. and I am picky.

Please call Keith in the contact above if you would like to discuss this in more detail.

Thank you.
