QR Code Link to This Post im giving my dog away for free adoption. her name is lucy and shes an 8 year old labrador mastiff. im looking for a new home for her; someone who wants a sweet companion. im giving her away because i have two dogs but she doesn't get along with my other dog. lucy tends to fight with my other dog and she hurts it. if i do not find a new home for her then i have to make the horrible decision of putting her to sleep. shes very sweet, protective dog, shes just not great with other dogs , this breaks my heart but i need to find her a new home without other dogs, a home where she can get 100% love.

any question
