QR Code Link to This Post Hi! If you are looking for somewhere to take any unwanted , I will happily take them from you, no questions asked, no judgement whatsoever! It can be a hard and sometimes unexpected journey taking care of reptiles or exotic animals, I understand it may be hard, and sometimes just not the right fit for your family, it's nothing to be ashamed of! It also can be even harder trying to find someone or someplace to rehome these animals, many people will be extremely judgmental or rude! I will gladly take in most reptiles, no questions asked, and I will not judge you, I will not question your enclosure size, diet or temps, just tell me the species, a brief description or history of the animal and if they are sick, what symptoms they are showing! I just want these amazing animals to have a wonderful life, and the proper care! If you have any sick or unwanted animals that you cannot care for anymore, feel free to just contact me! Thank!
