QR Code Link to This Post Hello there,

My name is Nicole. I have been taking care of animals for as long as I can remember! I have work experience as a vet tech assistant, have worked in dog daycares for years - as well as volunteered with rescues, and I currently have my own animal care business. From being around dogs and studying them, I do have behavioral training under my belt.. I am willing to help if you need it. My best friends name is Milo, he is a 10 year shih tzu.. doesn't mind other dogs, usually just does his own thing!

When it comes to caring for your animal, there are none too big, too little, too scaly, or slithery!

Please feel free to e-mail with any questions you may have.

Thanks for taking the time to read a little about me, look forward to hearing from!
