QR Code Link to This Post I'm looking for the 'surround' moldings that go on the left side of an 89 Ford Country Squire rear 1/4 panel. The vinyl on them does not have to be great but the moldings must not be bent. This includes (1) the molding just under the window molding, (2) the vertical molding near the back of the 1/4 panel just ahead of the tail light, (3) the horizontal lower molding and, (4) the curved molding that goes over the wheel.
