QR Code Link to This Post Hi,

We have a commercial office building with sheet metal roofing. It has a rain gutter that runs all the way around it. The gutter is rusted in multiple spots and we would like to replace it. We have the sheet metal supplies and need someone who can fabricate / install the gutter. Length of job is about 320 feet or 16 sheet length.

Please call me to see the job site and to make a bid for how much you will charge for the job. Preferred working days are Saturday, Sunday, and Monday. Would also like to see some pictures of your previous work and can visit your old job site too for confirmation that you can handle it. Look forward to working with you and thanks for your!
