QR Code Link to This Post I'm looking for an inexpensive rental in the Nashville metro area. I'm mature responsible easygoing and very handy around the house and yard. I'd also be happy to trade my skills in home repair, general upkeep, repairs and renovation, landscaping, etc. for full or reduced rent if you're interested in exploring that possibility. For more information about me and my many abilities, please respond via email through the CL message relay system. In your response please include some information about what you have to offer for housing, including rental amount and a general location. If you're interested in a work for rent trade please let me know what sort of tasks you want done..
