QR Code Link to This Post Stemming from opposite sides of the country, Guitarists Trey Swain and Krys Escobar were brought together through winning a nationwide Guitar Center contest held by Synyster Gates of Avenged Sevenfold. Shortly after meeting in California, they fully dedicated to creating a hybrid style of rock/metal by moving to Music City. After meeting drummer Brian Stinnett and bassist Tim Bonanno who share their same vision of heavy and melodic music, Archeons was formed.

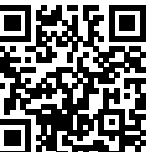

Archeons takes the melodic side of Avenged Sevenfold, the groove of Periphery and the intricate rhythms of Memphis May Fire to form a modern take on what made rock and classic metal timeless.

Vocalist: We are currently looking for a talented vocalist with a wide range, a passion for lyrics and harmonies and the ability to scream when needed. Grit is a plus i.e. M. Shadows, Chester Bennington, Spencer Sotelo.

We're looking for members around 21 - 26
