QR Code Link to This Post I'm looking to get an estimate on replacing some of the boards on my front porch and back deck. I have called a couple businesses who don't seem very interested, especially after I tell them I don't want it demolished/rebuilt. I cant afford it. I guess they think the job is too small?? I don't really know. I also need "Flashing" over the metal roof of the deck in one area - it leaks when it rains. Someone had apparently tried to use that "stop a leak" tape and spray, but it didn't work. I would also like a sliding screen door installed on the back sliding glass door. I don't know what happened to the one that is supposed to be there.
