QR Code Link to This Post Looking for guitarists, singers, piano players, and or producers. Anybody who has experience booking shows. I play rhythm guitar and sing. My style is more of a indie, folk, rnb, pop feel but I'm open to other genres as well. I am looking for a partner or partners willing to go out and play gigs. My strength is in my vocals but i can learn the rhythm part to any song on guitar really fast. My goal is to make money doing what I love. I left my normal job in California to come here and pursue that dream. I was too complacent and needed to get out of my comfort zone. If you're interested let me know and we can jam to see if we click.

Some of my influences would be Ed sheeran, Justin nozuka, John Mayer, gabe bondoc, jack Johnson, sam smith, James bay, sid sriram and the list goes on.

Really in to taking top 40 songs and doing acoustic covers. Don't want to be a cover artist though. Want to create songs with meaningful lyrics. Well i suck at writing these things so if you're interested dont hesitate to reply. Text or email

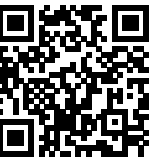

You can check out two of my originals here:
