QR Code Link to This Post I know how impossible it seems it can be to find someone who takes care and loves your child/children the same way that you would, while also being affordable. If you are in need of childcare for your little ones, I'm available!

Hello, my name is Laquilla! I would like to state here that I am a stay at home mom, I have two children. 4 yr old boy, 6 month old girl. Married as well. One dog and my home is also smoke free.

*If your child/children do NOT do well with dogs, this will not work. As I can not keep him locked in his crate all day.

**Since my daughter is so young in age, I am not looking to take on any babies less than a year and a half old!

I am not cpr certified and do not have a license, but I do have my home choke hazard free and a loving home. I know that is still a worry with all parents, but I am very cautious with my children and would be no different with yours. I have kept many children before, also lived in as a nanny twice but this is my first time trying to do in-home childcare/home daycare. I am not available on the weekends, that is the only schedule that I can not work with! I do have a valid drivers license, and my own car with no mechanical issues. Meals and snacks are included in the price. I would just need to know if your child/children have any allergies. If you are interested in your littles being in my care, while you work, I am available. My contact is . ATTENTION: Please do not call first! TXT first with details about you and your child /children as well as your schedule! I'm not near my phone all day, and I have gotten a crazy amount of unnecessary calls so I don't always answer. If you have any questions, don't hesitate to ask, I am reasonable and can work with.
