QR Code Link to This Post I am need of a handyman who would be willing to look under my trailer and give me his opinion/estimate on what can be done to insulate the pipes and surrounding area. My pipes froze last winter and I am hoping there is a solution to avoid this again. I am disabled and unable to do this job myself. I am located off Rte 236 about 1/2 mile from the I95 exit and Kittery Memorial.
