QR Code Link to This Post Hi there,,

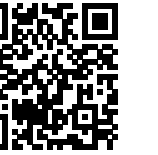

We are a metal band from the Concord, NH area that is looking for a vocalist front man (person). We are looking for vocals in the like of Dave Mustaine (Megadeth), Tom Araya (Slayer) and Joey Belladonna (Anthrax.) We gig locally (New England) and will also be recording professionally in the very very near future. We are 30+ years old and older that practice once a week in the Concord, NH area, and will be gigging out about once a month in the NH and New England area.

We play mostly originals (that are of heavy metal nature with some thrash influence) with a heavier cover or 2 mixed into our set list. Our influences are old Metallica, Pantera, Slayer, Megadeth, Existing material is heavy metal with leads with punk like vocals (one of our guitarists is handling the vox as the rest of us are terrible at it), where as new material being written is leaning more towards the progressive thrash direction.

You must have reliable transportation and handle your share of band expenses like the rest of us. No heavy drugs, belligerent drunks or drama queens. This is a serious hobby for us, but we like to have fun with it. We practice at night during the week to keep weekends free for shows.

If interested, please let us know. Thank you.

- Matt
