QR Code Link to This Post Hi

I am selling my gently driven 2007 Honda Civic EX loaded with original navi. It has only 128k miles, which is very low for a Honda. Everything works great AC/Heat etc... Battery is brand new, brakes and (goodyears) tires are decent you can check the pics so ready for the winter. It is really nice car in/out. I purchased from a dealer and paid off clean title is in hand so I am the second owner. Nothing wrong with it well maintained. Pretty good on gas.

Ex has an audio system, Navigation, moonroof, voice command system, aux outlet, nice rims, steering wheel radio and cruise controller ..etc

If you have any question, please feel free text to me. (Only serious buyers)

No Low Ball

Thanks!!!

honda, civic ex exl lx
