QR Code Link to This Post Hey there!

Grad student looking for an amateur model for a photo shoot(s). Would be 2-3 hours of work, and I'd be happy to go into more details about my aesthetic and specifics of the project, and could share some examples from my portfolio as well. Offering \$1-200 or so depending on the amount of time spent, but I'm easy going and negotiable. I would want you to have fun! Would be easy money, and I know there are a lot of ads on here, but if you are serious and want to chat more about the project, please email me and I'll answer any questions you have. No experience needed, 18+ only. Please reply with "photo shoot" in the subject line to weed out spam. Please include a few pictures of yourself, but if you would prefer to chat with me first, that's fine too!

Thanks for!
